Objective

Computer Science Engineering student with experience in web development and ASP.NET MVC applications. Strong in problem-solving and building scalable, user-friendly systems. Seeking a software development role. Also interested in exploring areas like Data Science and Machine Learning.

Education

- **B.Tech in Computer Science Engineering** 2022 – 2026
Government Engineering College, Jhalawar
- **Class 12 (CBSE)** 2022
Kendriya Vidyalaya
- **Class 10 (CBSE)** 2020
Kendriya Vidyalaya

Technical Skills

- **Languages:** Java, Python, C, C++, C#, JavaScript (Basics), TypeScript (Basics)
- **Web:** HTML, CSS, React (Basic), Vue.js (Basic)
- **Database:** SQL, DBMS
- **Tools:** Visual Studio, SQL Server, Android Studio

Experience

- **Dream Mantra**, Jaipur Full Stack Developer Intern | May 2026 – Present
 - Developing and maintaining web applications using modern full-stack development technologies.
 - Working on front-end and back-end development, database integration, and application deployment.
 - Participating in internship programs focused on industry-oriented learning and practical software development.
 - Collaborating with mentors and team members to build scalable and user-friendly solutions.
- **Lohiya Suppliers**, Jaipur Quality Analyst Intern | Dec 2025 – Jan 2026
 - Performed quality inspection, documentation, and process monitoring activities.
 - Analyzed product quality parameters and identified inconsistencies in processes.
 - Assisted in quality assurance and compliance-related tasks.
 - Gained practical knowledge of quality management principles, root-cause analysis, and industrial quality standards.
- **GAIL (India) Limited**, Jaipur Web Developer Intern | 90 Days
 - Developed a web-based application to manage Excel data stored on a server.
 - Implemented secure login and registration authentication systems.
 - Built date-based filtering functionality for efficient data retrieval.
 - Enhanced application usability through responsive UI improvements.
- **Rajasthan Electronics and Instruments Limited (REIL)**, Jaipur Web Developer Intern | 90 Days
 - Worked on real-world project development in a corporate environment.
 - Participated in web application development and software lifecycle activities.
 - Gained exposure to industry practices and teamwork in software development.
- **Kalisindh Thermal Power Project**, Jhalawar Training Intern | 45 Days
 - Studied thermal power generation systems and industrial operations.
 - Observed cybersecurity practices including firewalls and layered security mechanisms.
 - Learned about operational safety and infrastructure management in power plants.
- **Surman Sansthan**, Jhalawar Computer Tutor (Part-Time) | Jul 2022 – Mar 2026
 - Taught children fundamental computer skills and computer science concepts.
 - Conducted sessions related to computer systems, software applications, and digital literacy.
 - Assisted students in developing technical knowledge and problem-solving abilities.
 - Contributed to the organization's mission of supporting orphaned and underprivileged children through education and skill development.

Projects

- **Temporal (ASP.NET MVC)**
Built a system to visualize and filter Excel-based datasets with authentication and responsive UI.
- **E-Commerce Website**
Developed a food ordering and reservation system with database integration.
- **Savari: Rent & Ride**
Java-based taxi booking system supporting travel and goods transport.

Certifications

- Deloitte Australia – Cyber, Data Analytics, Technology Job Simulations (Forage)
- LinkedIn – Prompt Engineering, Web Development

Soft Skills

- Problem-solving, Logical thinking, Quick learning, Teamwork

Interests

- Basketball, Cars & Bikes, Music, Technology, Data Science
