Objective

Computer Science Engineering student with experience in web development and ASP.NET MVC applications. Strong in problem-solving and building scalable, user-friendly systems. Seeking a software development role. Also interested in exploring areas like Data Science and Machine Learning.

Education

- **B.Tech in Computer Science Engineering** 2022 – 2026
Government Engineering College, Jhalawar
- **Class 12 (CBSE)** 2022
Kendriya Vidyalaya
- **Class 10 (CBSE)** 2020
Kendriya Vidyalaya

Technical Skills

- **Languages:** Java, Python, C, C++, C#, JavaScript (Basics), TypeScript (Basics)
- **Web:** HTML, CSS, React (Basic), Vue.js (Basic)
- **Database:** SQL, DBMS
- **Tools:** Visual Studio, SQL Server, Android Studio

Experience

- **GAIL (India) Limited**, Jaipur Training Intern | 90 Days
 - Developed a web-based application to manage Excel data stored on a server.
 - Implemented secure login/register authentication system.
 - Built date-based filtering for efficient data retrieval.
 - Enhanced UI with responsive design and usability improvements.
- **Rajasthan Electronics and Instruments Limited (REIL)**, Jaipur Training Intern | 90 Days
 - Worked on real-world project development in a corporate environment.
 - Built a web application and learned full development lifecycle.
- **Kalisindh Thermal Power Project**, Jhalawar Training Intern | 45 Days
 - Studied thermal power generation systems.
 - Observed cybersecurity practices like firewalls and layered security.

Projects

- **Temporal (ASP.NET MVC)**
Built a system to visualize and filter Excel-based datasets with authentication and responsive UI.
- **E-Commerce Website**
Developed a food ordering and reservation system with database integration.
- **Savari: Rent & Ride**
Java-based taxi booking system supporting travel and goods transport.

Certifications

- Deloitte Australia – Cyber, Data Analytics, Technology Job Simulations (Forage)
- LinkedIn – Prompt Engineering, Web Development

Soft Skills

- Problem-solving, Logical thinking, Quick learning, Teamwork

Interests

- Basketball, Cars & Bikes, Music, Technology, Data Science
